**Independent Auditor's Report On Compliance And Internal Control Over
Financial Reporting In Accordance With *Government Auditing Standards***

Board of Directors
Selah School District No. 119
Selah, Washington

We have audited the general purpose financial statements, as listed in the table of contents, of Selah School District No. 119, Yakima County, Washington, as of and for the year ended August 31, 1997, and have issued our report thereon dated March 31, 1998. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

COMPLIANCE

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatements, we performed tests of District's compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. We also performed additional test of compliance with state laws and regulations as required by *Revised Code of Washington* (RCW) 43.09.260. This statute requires the State Auditor to inquire as to whether the District complied with the laws and the *Constitution of the State of Washington*, its own ordinances and orders, and the requirements of the State Auditor's Office. Our responsibility is to examine, on a test basis, evidence about the District's compliance with those requirements and to make a reasonable effort to identify any instances of misfeasance, malfeasance or nonfeasance in office on the part of any public officer or employee and to report any such instance to the management of the District and to the Attorney General. However, the objective of our audit of the financial statements was not to provide an opinion on overall compliance with these provisions. Accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance that are required to be reported herein under *Government Auditing Standards*.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting.

Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would

be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

However, we noted certain matters involving the internal control over financial reporting that we have reported to the management of the District in a separate letter dated April 16, 1998.

This report is intended for the information of management, the Board of Directors, and federal awarding agencies and pass-through entities. However, this report is a matter of public record and its distribution is not limited. It also serves to disseminate information to the public as a reporting tool to help citizens assess government operations.

Independent Auditor's Report On Financial Statements

Board of Directors
Selah School District No. 119
Selah, Washington

We have audited the accompanying general purpose financial statements of Selah School District No. 119, Yakima County, Washington, as of and for the year ended August 31, 1997. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The financial statements referred to above do not include the general fixed asset account group, which should be included in order to conform with generally accepted accounting principles. The amount that should be recorded in the general fixed assets account group is not known.

In our opinion, except for the effect on the financial statements of the omission described in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of Selah School District No. 119 as of August 31, 1997, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 1998, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits*

of States, Local Governments, and Non-Profit Organizations, and is not a required part of the financial statements. Such information has be subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly presented, in all material respects, in relation to the financial statements taken as a whole.

**Independent Auditor's Report On Compliance With Requirements Applicable
To Each Major Program And Internal Control Over Compliance In Accordance
With OMB Circular A-133**

Board of Directors
Selah School District No. 119
Selah, Washington

COMPLIANCE

We have audited the compliance of Selah School District No. 119, Yakima County, Washington, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to its major federal program for the year ended August 31, 1997. The District's major federal program is identified in the Federal Summary. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit in compliance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the major federal programs occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended August 31, 1997.

INTERNAL CONTROL OVER COMPLIANCE

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of management, the Board of Directors, and federal awarding agencies and pass-through entities. However, this report is a matter of public record and its distribution is not limited. It also serves to disseminate information to the public as a reporting tool to help citizens assess government operations.

Federal Summary

The results of our audit of Selah School District No. 119 are summarized below in accordance with OMB Circular A-133.

- We issued a qualified opinion on the District's financial statements.
- We noted no instances of noncompliance that were material to the financial statements of the District.
- We issued an unqualified opinion on the District's compliance with requirements applicable to its major federal programs.
- We reported no findings which are required to be disclosed under OMB Circular A-133.
- The dollar threshold used to distinguish between Type A and Type B programs, as prescribed by OMB Circular A-133, was \$300,000.
- The District qualified as a low-risk auditee under OMB Circular A-133.
- The following was a major program during the period under audit:

<u>CFDA Number</u>	<u>Program Title</u>
10.555	School Lunch Program
